EXAMINER'S AMENDMENT

Claim 6 is allowed.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Julie W. Meder on November 3, 2006.

The application has been amended as follows:

Replace all previous claim lists with the following, which begins on page 3.

Art Unit: 1712

Begin claim amendments

Claims 1-5 (cancelled).

Claim 6 (previously presented): An inorganic compound sol comprising a dispersion medium having a dielectric constant of from 10 to 85 and, dispersed therein, inorganic compound particulates having average particle size from about 11 to 30 nm whose surface has been modified by an organic compound which is selected from the class consisting of vinylsilane compounds, acrylsilane compounds, epoxysilane compounds, aminosilane compounds, γ-mercaptopropyltrimethoxysilane and γ-chloropropyltrimethoxysilane, exhibiting a molecular polarizability of from 2 x 10⁻⁴⁰ to 850 x 10⁻⁴⁰ C²m²J⁻¹,

wherein the inorganic compound particulates are composite oxide particulates composed of silica and at least one inorganic oxide other than silica, with the weight ratio of silica to at least one inorganic oxide other than silica being 3 to 500, wherein the silica containing composite oxides are produced by simultaneously adding an alkali metal silicate and an alkali soluble inorganic oxide to an alkali aqueous solution, and wherein the inorganic compound sol is stable in the presence of species selected from the group consisting of ionic components, salts and surfactants,

wherein the at least one inorganic oxide other than silica is selected from Al₂O₃, ZrO₂, TiO₂, SnO₂, In₂O₃, Sb₂O₅ and WO₃.

End claim amendments

Reasons for allowance

2. The following is an examiner's statement of reasons for allowance: claim 5 is canceled as redundant and not further limiting since the presence of ionic components would have been present in the materials of claim 6, said ionic components have not been removed from the claimed compositions, and are characterized as stable (see page 1, lines 11-15, of the instant specification).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel S. Metzmaier whose telephone number is (571) 272-1089. The examiner can normally be reached on 9:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P. Gulakowski can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
